

WARNING: DISCONNECT POWER AT THE MAIN FUSE BOX BEFORE INSTALLATION.

WARNING:

This fixture is intended for installation in accordance with the National Electrical Code (NEC) and all local code specifications. If you are not familiar with code requirements, installation by a certified electrician is recommended.

Before assembly, remove all parts and part packages from box. If anything is missing, please contact the retailer from which the product was purchased.

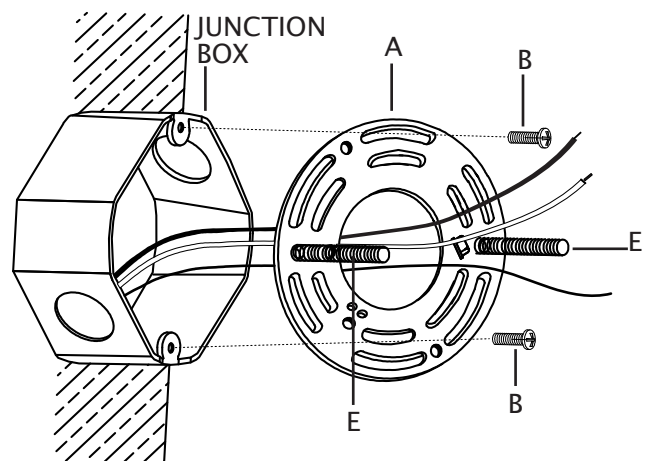

ITEM#: CN290216

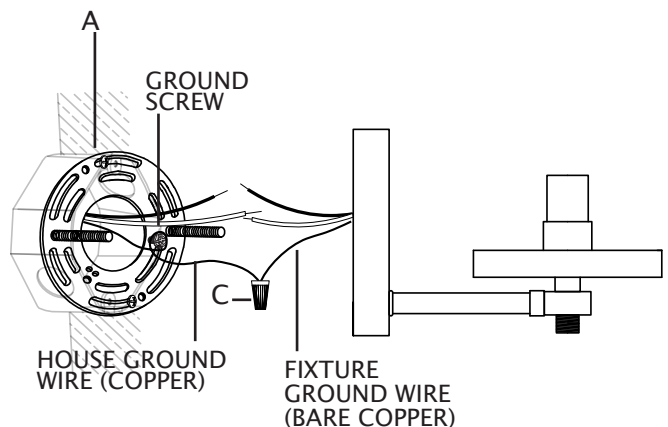

1. Position mounting bracket (A) so threaded ends of attached fixture mounting screws (E) are pointing out.
2. Carefully pull house wires through center hole in mounting bracket (A).
3. Align holes in mounting bracket (A) with holes in junction box. Make sure fixture mounting screws (E) are level.
4. Thread each junction box screw (B) into holes in mounting bracket (A) and into holes in junction box. Tighten junction box screws (B) to secure mounting bracket (A) to junction box.

CAUTION: Make sure house wires are pulled completely through hole in mounting bracket.

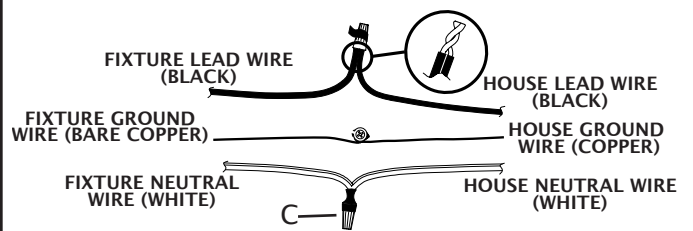

DO NOT pinch wires between mounting bracket and wall.

5. Strip 3/4" of insulation from ends of fixture wires.
6. Slightly loosen ground screw on mounting bracket (A). Do not completely remove ground screw. Wrap house ground wire (copper) around ground screw, leaving enough ground wire to attach to fixture ground wire (bare copper). Twist end of fixture ground wire (bare copper) and end of house ground wire (copper) together. Twist wire nut (C) onto ends of wires. Completely tighten wire nut (C).

7. Twist end of house lead wire (black) and end of fixture lead wire (black) together. Twist wire nut onto ends of wires. Completely tighten wire nut. Twist end of house neutral wire (white) and end of fixture neutral wire (white) together. Twist wire nut onto ends of wires. Completely tighten wire nut.
8. Wrap electrical tape (not included) around wire nuts and wires. Ensure wires are securely fastened into wire nuts.
9. Carefully push all wires and wire nuts into junction box.

10. Place backplate (D) over mounting bracket (A). Pass holes in backplate (D) over ends of fixture mounting screws (E). **CAUTION:** Do not pinch wires between backplate and wall.
11. Screw one threaded cap (F) onto end of each fixture mounting screw (E). Tighten threaded caps (F) to secure fixture to wall. DO NOT over tighten.
12. Screw one bottom rod (M) onto each threaded pipe on bottom of fixture body (O).
13. Pass hole in bottom of one shade (K) over socket.
14. Thread socket ring (L) onto socket. Tighten socket ring (L) to secure shade (K) in place. DO NOT over tighten.
15. Repeat steps 13 and 14 for remaining shade (K).
16. Screw recommended bulbs (E12 Candelabra bulb type, not included) into sockets. Verify correct bulb wattage marked on socket of fixture. **WARNING:** DO NOT exceed maximum bulb wattage.
